

About us

We Pride ourselves on our reputation

Aztec and the engineers have a positive reputation that is second to none.
The majority of our customers are obtained via word of mouth.
We work around you to allow you to work without interruption.

We asked some of our customers to describe us and our services in a single word, the most common were:

- Reliable
- Cost Effective
- Resourceful Responsive
- Qualified
- Committed So why choose us?

We all know that IT is an expensive tool that is essential for the modern company. When tied in with expensive, full time on site support this cost can escalate very quickly.
Aztec's support solutions are designed to be as flexible for you, as you are to your customers. We work around you. This allows us to cut-out down time during the day and allow all your staff to carry out the functions that you employ them to do. With our all inclusive solutions you know exactly how much your support costs, every time, all of the time. IT is out passion, let us help your company benefit from IT.
