

Services

Take the guess work out of your network support.

with a long proven track record, all of our engineers are qualified, experienced and well versed in providing you with either a full or Ad-Hoc support solution. Call us now to see how we can save you money and improve your productivity.

From onsite support on an agreed daily, weekly or monthly schedule, Aztec will facilitate your IT requirements, offering advice on how to manage and run your IT.

Need something a little less rigid? Aztec can offer a full IT service remotely or on site as you require, chargeable on an agreed hourly rate. Please call us for more information.
